Troubles That Keep Half the Connellsville Doctors Busy.

For the sake of your personal wel-

fars, just think a moment about the precess of digesting food.

There are certain secretions called gathe juties that act upon the food after it is swallowed and change all the nutrition in it into life-giving blood.

Austhing that interferes with the secretion of these juties causes indisection and makes a chronic state of stemach weakness inevitable. From now on build up the strength and health of the stomuch with Misnard health o se f strong and never know the meat-

ing of indigestion.

Half of the prescriptions the Connellsville doctors write are for troubles that result directly from a weak end stomach. Strengthen the stom ach muscles, increase the secretion of gastric juices, and you will find that common afflictions—indigestion, with its headrehes, dizziness, depres-sion of spirits, spots before the eyes,

We Begin December With Sweeping Reductions in Millinery

Every Hat in the Store Formerly Priced Above \$10 Can Now be Had at 1/4 Off Regular Prices.

This means if you have admired a hat priced \$30.00 you can now buy it at \$22.50, or a \$25.00 hat at \$18.75, and so on down to the \$10.00 hats at \$7.50.

This does not mean just a little group of hats from which to choose; it means you can select any hat in the store formerly priced between \$10.00 and \$30.00 at the littlest prices we've ever quoted at the beginning of December.

It is hardly necessary to describe these hats for the exceptional style and character of Wright-Metzler Millinery is too well known to need descriptive detail. Every hat that we present is authoritatively trimmed, no guess work. The trimming of every hat is based upon absolute knowledge of what is correct. This is not a sale of ready made millinery, but of most exclusive and richest collection of women's hats in this section. The sale begins
